

Addition and Subtraction

Year 2 Autumn Term Week 9

Lesson 1

Today we will be learning to:

- complete adding and subtracting problems
- add several numbers
- understand that adding but not subtracting can be done in any order.

Mental Activity

What's my number operation?

One child wears a headband.

The teacher will add a number onto your headband.

Your teacher will give the class a number to apply.

What was the number on the headband?

Main Activity

Today we are going to work on calculations involving three numbers.

6 3 2

Make a number sentence.

You can add

subtract

add and subtract.

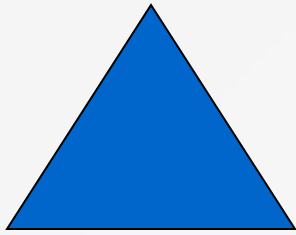

6 3 2

How did you work out your answers?

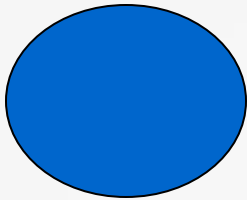

Were all the answers bigger than 0?

Why not?

Group Work

Practise adding and subtracting by making number sentences.

Practise adding and subtracting by making number sentences.

Practise adding and subtracting by making number sentences.
