

Counting and Properties of Numbers

Year 2 Autumn Term Week 8

Lesson 1

Today we will be learning to:

- count on in steps of any size
- solve number patterns
- make up our own number patterns.

Mental Activity

Clap back

Your teacher will clap a pattern.

You must now clap the same pattern back.

Listen carefully.

Count the different parts of the pattern.

Main Activity

Today we are going to be looking for patterns in number sequences.

How did you remember what to clap back?

Listen to your teacher clap another pattern.

What was the rule?

What would the next claps be?

What is the sequence in this chart?

Group Work

Complete a 10 x 10 grid. Make an alternating pattern.

Complete a 10 x 10 grid. Make a regular pattern.

Complete a 10 x 10 grid. Make a regular pattern. Continue pattern for numbers over 100.
