

# Mass

**Year 2 Spring Term Week 5**

**Lesson 1**

# Today we will be learning to:

- solve measurement problems
- use words about mass and ways of measuring weight
- measure using non-standard units
- compare weights
- estimate and measure.

# Mental Activity

Imagine a spider is on number 4 of a hundred square.

Which number is below it?

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Imagine a spider is on number 19 of a hundred square.

Which number is below it?

Which number is above it?

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Imagine a spider is on number 45 of a hundred square.

Which number is below it?

Which number is above it?

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Imagine a spider is on number 99 of a hundred square.

Which number is above it?

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Imagine a spider is on number 34 of a hundred square.

Which number is below it?

Which number is above it?

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

# Main Activity

Today we are going to be finding out  
about mass

which is how heavy things are.

I will show you two parcels.

Which is the heaviest?

How could we find out?

What if the parcels were in a different room or place?

Your teacher will split you into eight groups.

Each group will be given a parcel.

How could you find out which is the heaviest parcel?

Each group will be given a balance and some non-standard units.

Remember to measure using the same units.

Which unit do you need most of?

Why?

Which unit is the best or worst for measuring with?

Why?

Which parcels were the heaviest?

Did you find them all the same?

Each parcel weighed 1kg.

What does this term mean?

Where have you heard the term before?

# Group Work

Work in the same groups.

Make a poster of classroom objects that are heavier or lighter than a kilogram.

1 kg	
lighter	heavier
