11

When all your numbers have been  
crossed out,  
call 'Bingo!'

# Main Activity

Today we are going to practise reading numbers in figures and words.

Your teacher will show you a number card.

Find the word card to go with this number.

How do you write the number  
sixteen?

How do you write the number  
thirteen?

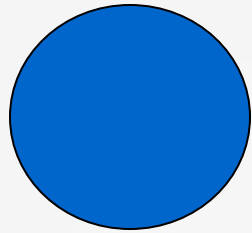

How do you write the number  
one hundred and ten?

How do you write the number  
two hundred and fifteen?

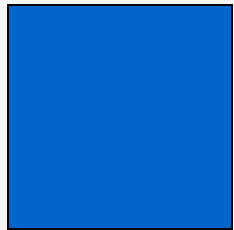

How do you write the number  
one hundred and one?

How do you write the number  
three hundred and thirteen?

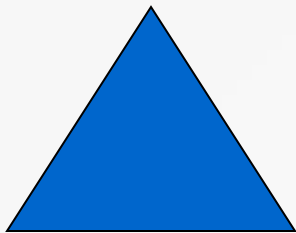

# Group Work

Read out number word cards.  
Your partner must write the  
figure. Swap roles.

Match words to figures. Practise  
writing figures for words and  
words for figures.

Make some number word cards  
for the rest of the class to read  
out and write the figure.
