

Problems Involving Measures

Year 2 Spring Term Week 12

Lesson 1

Today we will be learning to:

- find solutions to simple mass word problems
- understand and use words about mass.

Mental Activity

Find different ways of making 4 using addition.

Do not forget to use fractions like $\frac{1}{2}$ and $\frac{1}{4}$.

Main Activity

Today we are going to find
some possible solutions
to a problem related to mass.

What is mass?

How can we measure it?

What units do we use?

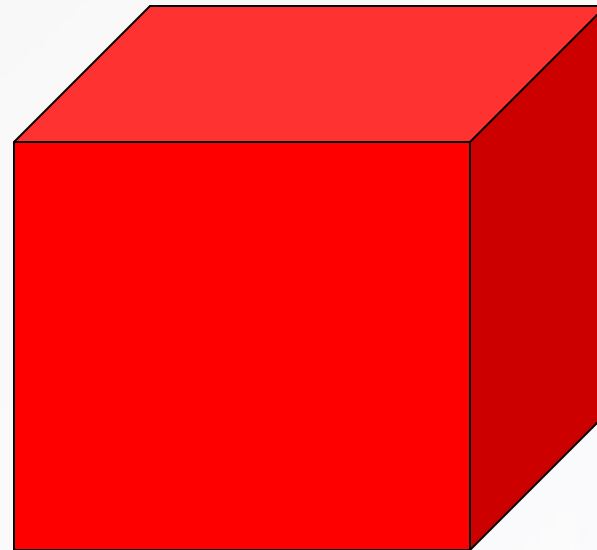

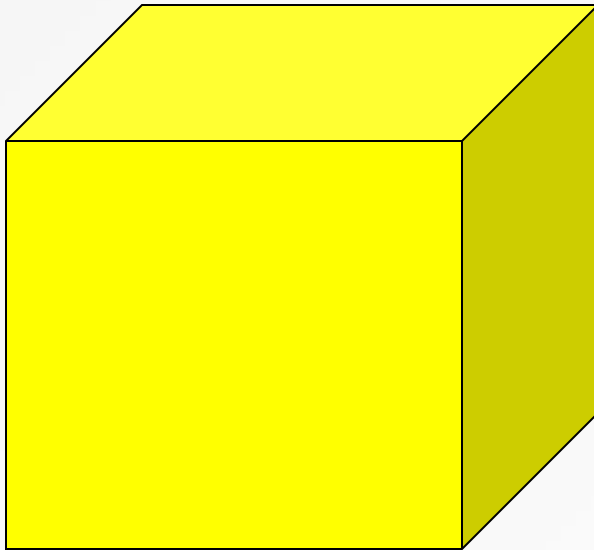

When do we measure mass?

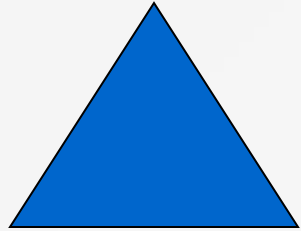

What mass do you measure in a
post office?

A postman has got 4kg of parcels in his bag.

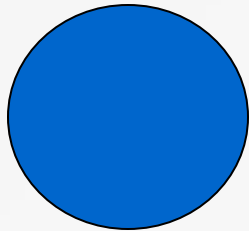

How many different parcels could he have and how much could they weigh?

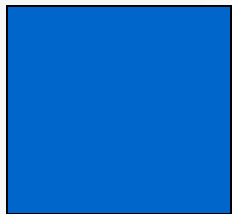

Group Work

The postman is carrying 5kg of parcels. Work out how many parcels he could be carrying and how much each could weigh.

In pairs, find different combinations of masses to make 5kg.

In pairs, find different combinations of masses to make 5kg.
