

# Time

*Year 2 Spring Term Week 11*

*Lesson 1*

# Today we will be learning to:

- use and understand words about time
- solve simple problems relating to time.

# Mental Activity

I will call out one half of a number bond.

What do you need to add to the number  
to make 10?

I will call out one half of a number bond.

What do you need to add to the number  
to make 20?

Your teacher will call out number bonds  
up to 20.

What do you need to add to the number  
to make 20?

## Main Activity

Today we are going to be working on  
some problems

related to time

and revising the meanings of words  
associated with time.

What words do you know about  
time?

What is today's date?

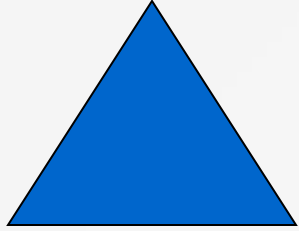

or

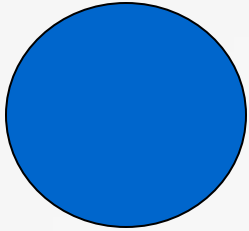

# What day is it?

| What day is it:                     | Name of day |
|-------------------------------------|-------------|
| today?                              |             |
| tomorrow?                           |             |
| yesterday?                          |             |
| the day after tomorrow?             |             |
| two days ago?                       |             |
| in four days' time?                 |             |
| in a week's time?                   |             |
| on the same date in a month's time? |             |

# Group Work

Complete 'What day is it?'

Complete 'What day is it?'

Complete 'What day is it?'
