

Time

Year 2 Autumn Term Week 12

Lesson 1

Today we will be learning to:

- use the words to describe time
- know how long a day, week, month and year is
- order the months of the year
- be able to relate months to a particular season.

Mental Activity

Your teacher will apply a number operation to a headband.

The person wearing the headband will give the class a number to apply the operation to.

What was the operation?

Main Activity

Today we are going to think about time
and the months of the year.

What words do you know about time?

How many hours in the day?

How many days in the week?

How many days in the month?

How many days in the year?

How many weeks in the year?

How many months in the year?

How many years in the century?

month
hour day
second
minute
year week

Put the words in order of increasing length of time.

Seasons

What is Winter like?

What is Spring like?

What is Summer like?

What is Autumn like?

Months of the year

January

February

March

April

May

June

July

August

September

October

November

December

Which months go with which season?

January

February

March

April

May

June

- Winter

- Spring

- Summer

- Autumn

July

August

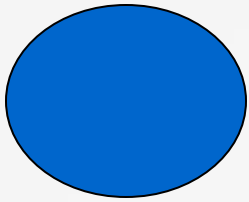

September

October

November

December

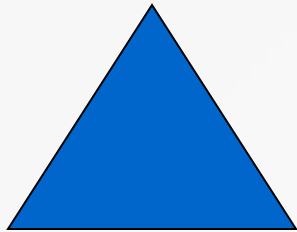

Group Work

Seasons of the year work.

Seasons of the year work.

Seasons of the year work.
