

Place Value

Year 2 Spring Term Week 2

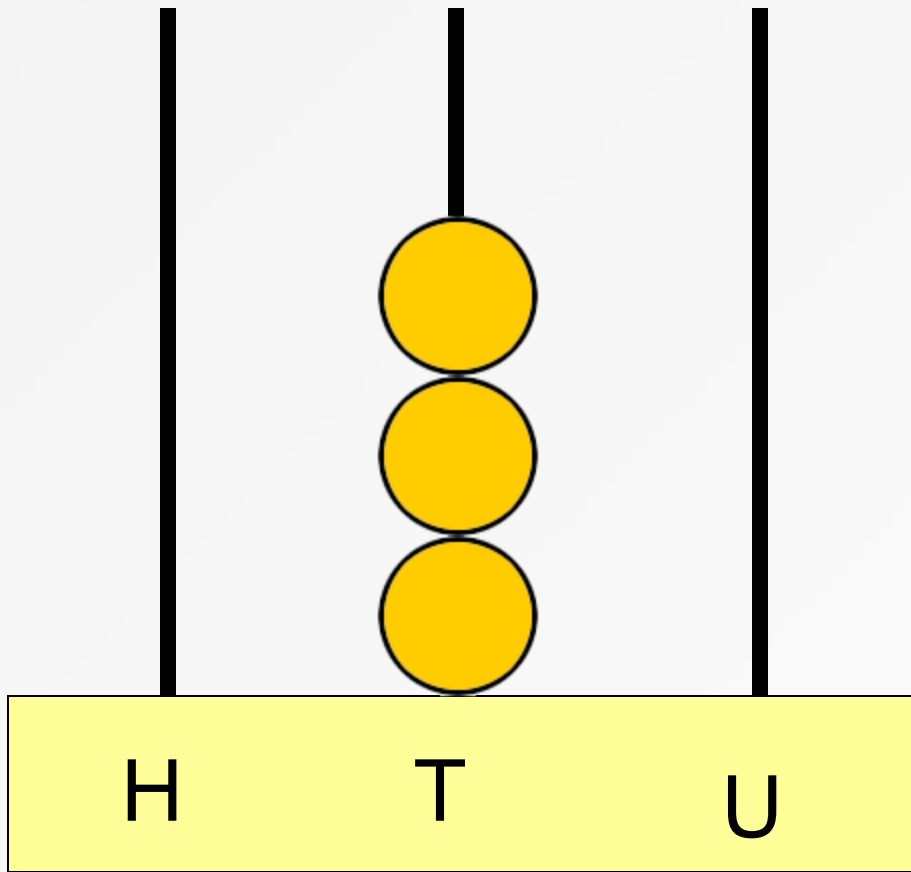

Lesson 3

Today we will be learning to:

- read and write numbers to 100 and over
- know what each digit in a number means.

Mental Activity

What numbers can we make
if there are three beads in the tens place
on an abacus?

These are the numbers I have found.

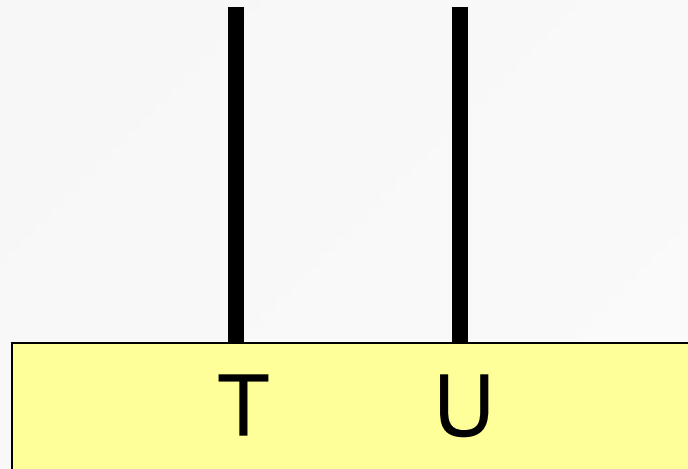

Main Activity

Today we are going to investigate different numbers that we could make on an abacus.

If we had four beads

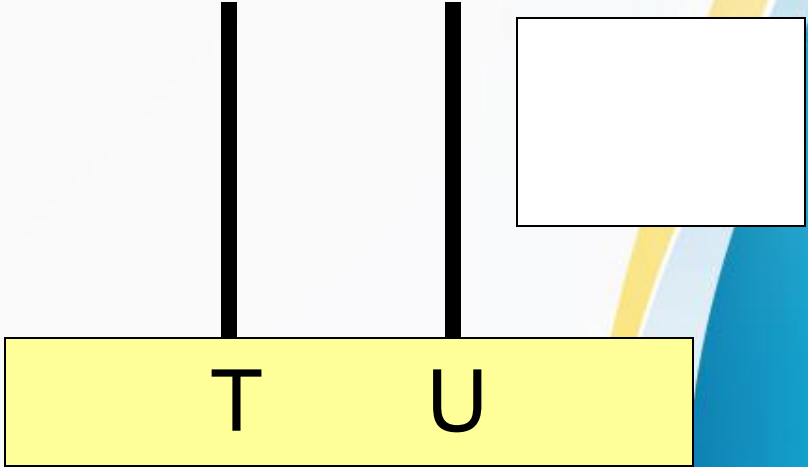

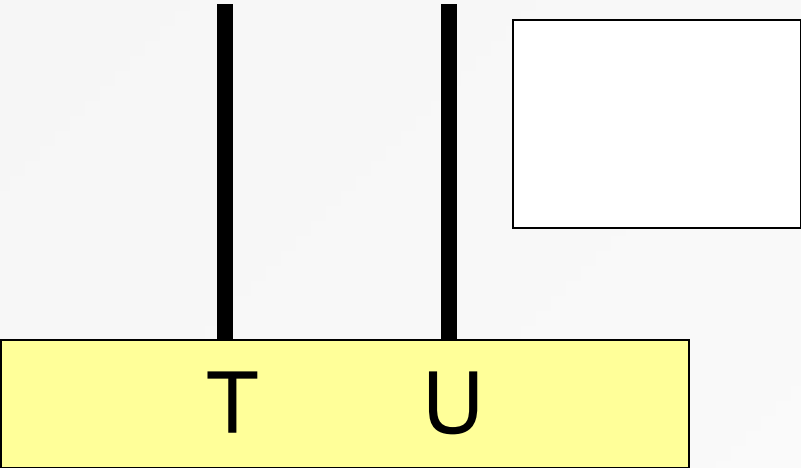

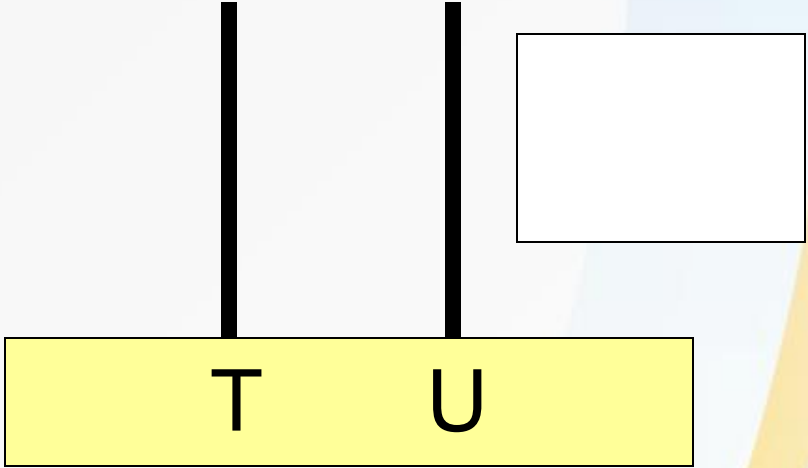

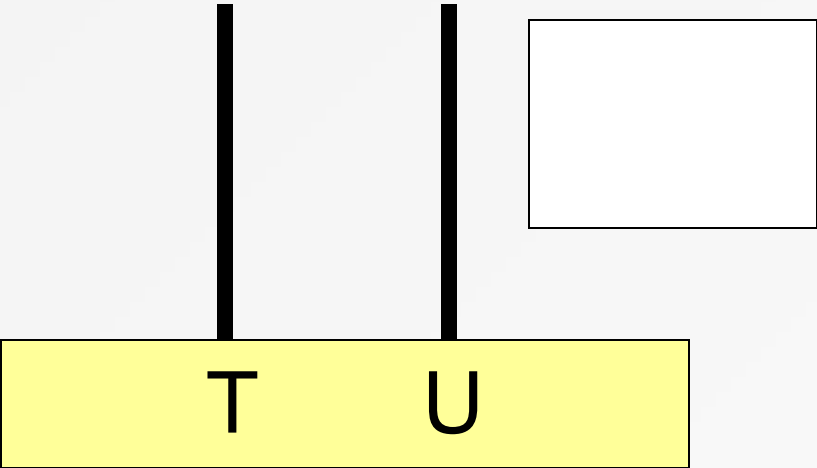

and placed them on an abacus

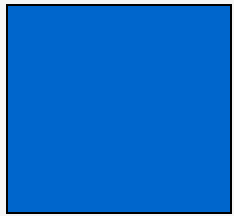

which two-digit numbers could we make by using all four beads each time?

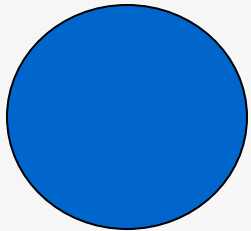

What numbers can we make?

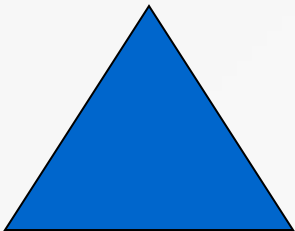

Group Work

Investigate which two-digit numbers you can make with six beads and an abacus.

Investigate which two-digit numbers you can make with six beads and an abacus.

Investigate which three-digit numbers you can make with six beads and an abacus.
