

Subtraction

Year 2 Autumn Term Week 9

Lesson 3

Today we will be learning to:

- use words to describe subtraction
- subtract a one-digit number from a multiple of 10.

Mental Activity

You will be given a number card between
0 and 20.

When the teacher calls your name, call
out the number two more than on your
card.

You will be given a number card between
0 and 20.

Give the number three less than
on your card.

You will be given a number card between
0 and 20.

Give the number four more
than on your card.

Main Activity

Today we are going to
work on subtraction.

$$60 - 5 = \square$$

$$40 - \square = 34$$

$$70 - 5 = \square$$

$$50 - \square = 42$$

$$\square - 1 = 29$$

Solve these sentences.

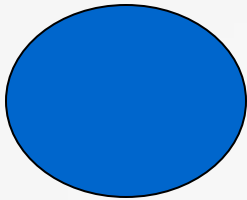

—	3		5	7		9	8		4
10	7	8			4			9	
30			25	23			22		
50	47				44			49	46

Solve this one row at a time.

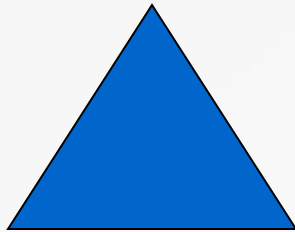

Group Work

Practise subtracting.

Identify wrong and right subtraction sentences.

Practise subtracting.
