

Mass

Year 2 Spring Term Week 5

Lesson 4

Today we will be learning to:

- solve measurement problems
- understand and use words about mass
- measure and compare using standard units.

Mental Activity

154		3		56
1			342	2
	67		4	67
45		562	99	33
	78		41	23

I will ask you questions about these numbers.

Main Activity

Today we are going to continue our work
on mass.

How did you find yesterday's task?

Group 1

Work in pairs.

Select three or four items.

Estimate what the order of mass should be.

Record the order.

Group 1

Check the order is correct by weighing the items using 10g weights.

Use the words:

- nearly
- a bit more than
- just
- exactly

when finding mass to the nearest 10g.

Group 2

Look at the food packages your teacher has given you.

Which is the heaviest?

Which is the lightest?

Group 2

Draw the packages.

Show the order of mass by marking
the lightest with a '1'.

Continue up to the heaviest.

Group 3

Work in pairs.

Choose a material.

Estimate which size of plastic bag to put
50g of the substance in.

Group 3

Weigh out the amount.

Were you correct in your choice of bag?

Repeat for other substances.
