

# Handling Data

**Year 2 Spring Term Week 12**

**Lesson 5**

# Today we will be learning to:

- solve problems involving information
- record findings as a block graph
- explain results.

# Mental Activity

12	4	10
3	27	16
9	20	37

Make number sentences using three of the numbers.

# Main Activity

Today we are going to be representing information as a block graph.

What do you remember about the last maths lesson?

- Making decisions
- Collecting data
- Presenting the information
- What does your information mean?

Today you are going to carry out your own survey.

You will use a block graph.

Tally chart

How will you  
collect data?

What are tally  
marks?

Put 10 tally marks  
in the box.

# What is a block graph?

Choose  
someone's  
data from  
yesterday.

How do you label the block graph axes?

# What is a block graph?

Choose  
someone's  
data from  
yesterday.

How would you transfer tally marks to  
the graph?

# Group Work

Work in the same groups as in the last lesson.

Make up four unlikely 'options' that you think your friends would like to do.

Make a tally chart.

Make a block chart on graph paper.

What did you find out?
